CENTRE FOR DISASTER MANAGEMENT

Lal Bahadur Shastri National Academy of Administration Mussoorie (Uttarakhand)

#### **Editorial Advisors**

#### Sanjeev Chopra, IAS

Former Joint Director LBS National Academy of Administration, Mussoorie, Uttarakhand, INDIA.

#### Dr. Satendra

Former Executive Director, National Institute of Disaster Management, New Delhi, INDIA.

## **Jayant Singh**

Deputy Director (Sr.) LBS National Academy of Administration, Mussoorie, Uttarakhand, INDIA

#### **Editorial Board**

#### Saurabh Jain, IAS

Deputy Director & Director Centre for Disaster Management LBS National Academy of Administration, Mussoorie, Uttarakhand, INDIA.

#### C. Sridhar, IAS

Deputy Director(Sr.) LBS National Academy of Administration Mussoorie, Uttarakhand, INDIA

#### Prof. Anil Kumar Gupta

Director Wadia Institute of Himalayan Geology Dehradun, INDIA.

#### Abhinay Walia

Research Officer, Centre for Disaster Management, LBS National Academy of Administration, Mussoorie, Uttarakhand, INDIA

Printed in Chandu Press, D-97, Shakarpur, Delhi-110092

# **PREFACE**

India is vulnerable, in varying degrees, to a large number of natural as well as man-made disasters. About 58.6% of the land mass is prone to earthquakes of moderate to very high intensity; over 40 million hectares (12% of total area) is prone to floods and river erosions; of the 7,516 km long coastline, close to 5,700 km is prone to cyclones and tsunamis; 68% of the cultivable area is prone to drought and hilly areas are at risk of landslides and avalanches. Vulnerability, to disasters/ emergencies of Chemical, Biological, Radiological and Nuclear (CBRN) origin also exists. Emergencies, especially those that occur in Nature, only become catastrophic events when they combine with vulnerability factors such as human settlements and population density.

The implementation of sound disaster management laws and policies can play an important role in mitigating the negative effects of disasters and can contribute to the development of more resilient societies. Disasters disrupt progress and destroy the hard-earned fruits of painstaking development efforts, often pushing nations, in quest for progress, back by several decades. Thus, efficient management of disasters, rather than mere response to their occurrence has, in recent times, received increased attention, both within the country and abroad. In a caring and civilized society, it is essential to deal effectively with the devastating impact of disasters, looking at the increased frequency and intensity of disasters in recent times.

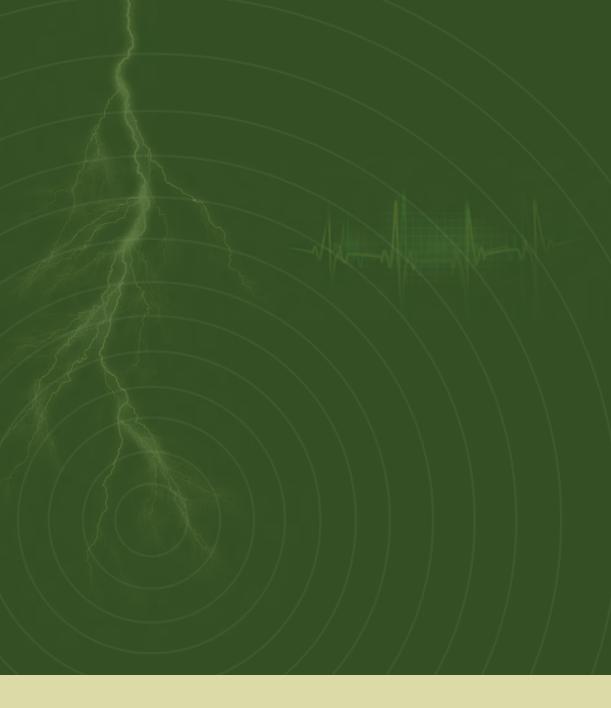

In continuation to the successful publication of the II issue of the journal Disaster-Response and Management" from Centre for Disaster Management, it is our pleasure to publish Volume 3, Issue 1 of the journal "Disaster-Response and Management" for the year 2015. The journal will provide an insight to the field administrators about the field level disaster management and scientific interventions towards Disaster Risk Reduction.

I would like to place on record the contribution made by faculty and staff of CDM who have contributed in various capacities for bringing out this Journal.

Saurabh Jain, IAS Deputy Director & Director, CDM, LBSNAA

# **CONTENTS**

| Preface iii  |     |
|--|-----|
| Assessment of Coastal Vulnerability Index (CVI) around Bangladesh Coast using geospatial techniques  | 1   |
| D. Mitra & M. Ashraful   |     |
| A need for Dead Body Management in India<br>Priya Namrata Topno (Research Scholar)   | 10  |
| Importance of Documentation in Disaster Management Lessons from Kosi Floods, 2008  | 19  |
| Paras Nath Rai, IPS  |     |
| Natural Disasters and Impact on Schools in India   | 30  |
| Saswati Paik C V Raghu Kumar   |     |
| Hazard- Risk Assessment and Mitigation Measures for West<br>Delhi District, Delhi, India   | 40  |
| Prof. Amarjeet Kaur, Tarun Ghawana, C.R. Garg (DANICS),<br>C. Sri Satya, Nakul Tarun, B.C. Nayak (IPS),<br>Dr. Indrajit Pal,  Dharampal (IAS) and Abhinav Walia  |     |
| Perils of Under Preparedness - J&K Floods 2014 - Lessons Learnt & Way Ahead  | 57  |
| BK Khanna, Nina Khanna   |     |
| Agro-climatic Drought Risk Management Anohar John Good<br>Practice in Disaster Governance<br>Himadri Maitra  | 67  |
| Good Practice in Disaster Governance   | 73  |
| Himadri Maitra   |     |
| Sunkoshi landslide in Nepal and its possible impact on India:<br>A remote sensing based appraisal<br>P.K. Champati ray   | 84  |
| Community Based Disaster Management in Andaman:  K.Venkatesan,   | 92  |
| The Flood Vulnerability Assessment of River Killiar In Trivandrum District of Kerala in India: A Critical Analysis of the Rainfall Consequence on the Site-Specific Vulnerability  Amalraj.M, Keshav Mohan | 109 |
| Youth Participation in Disaster Management   | 120 |
| Dr. Anshu Tiwari   | 120 |
| Role of Geospatial Techniques in Incident Command System for Disaster Management   | 125 |
| Amarjeet Kaur, Tarun Ghawana, Sisi Zlatanova,<br>Nakul Tarun, K. K. Aggarwal   |     |
| Natural Disasters Threat To National And Regional Stability Brigadier Narender Kumar   | 133 |
