## *Director's Message*

India, due to its unique geographical and geological conditions, is vulnerable to various natural disasters. In India, the incidents of flood, drought and other natural disasters are on the rise and pose a tremendous challenge to the society in general and administration in particular. Each disaster heightens the sense of urgency to equip ourselves better in coping and managing them. In this context, the training of Civil servants in Disaster Management assumes critical significance.

There is a need to move from the paradigm of responding to disasters to building resilience against disasters in all aspects of decision making. A key challenge to administrators would be increasing the level of awareness in the society regarding the cost of disasters and to build resilience specifically in infrastructure and community in general. It gives me immense pleasure to note that Centre for Disaster Management, Lal Bahadur Shastri National Academy of Administration is bringing out the edited Journal "Disaster Response and Management" Volume-X, No. 1 for the year 2023-24 under the project "Capacity Building on Disaster Management for IAS/Central Civil Services Officers" sponsored by National Disaster Management Authority (NDMA), Government of India, New Delhi. This is the compilation of research articles providing insights about recent trends in Disaster Management. I hope this volume will add to the knowledge base for Disaster Management in the country and will be useful for both the Officers Trainees and the Administrators in the field. It can also serve as a good reference material for ATIs and CTIs for their in house courses.

I hope this compilation will be useful for both the Officer Trainees and the Administrators in handling disasters and emergency situations across the country. I want to congratulate the CDM team for this publication and also place on record my appreciation for the contribution made by the faculty & staff of the CDM who contributed in various capacities for bringing out this Journal.

A handwritten signature in blue ink, appearing to read 'Sriram Taranikanti', with a stylized flourish at the end.

**(Sriram Taranikanti)**

## *Preface*

**T**he Centre for Disaster Management (CDM), Lal Bahadur Shastri National Academy of Administration (LBSNAA), Mussoorie is a training and research Centre working under the aegis of LBSNAA, Mussoorie. The Centre is involved in training IAS and other Group-A civil service officers at induction as well as at in-service level in various aspects of disaster management, besides undertaking, action research projects, documentation of best practices, development of case studies, etc.

The magnitude and frequency of disasters has increased drastically in terms of human, economic and environmental losses. Under the conventions on SDGs, Paris agreement, Sendai framework for Disaster Risk Reduction, there is a need to document the research carried by individuals in the field of Disaster management to achieve the committed goals of India as a signatory.

Disaster Response and Management in recent times, received increased attention, both within the country and abroad. In a caring and civilized society, it is essential to deal effectively with the devastating impact of disasters. It is our pleasure to publish Volume-X, No. 1 of the Journal “Disaster-Response and Management” for the year 2023-2024. The journal will provide an insight to administrators about the recent trends in response, planning and scientific interventions towards Disaster Risk Reduction.

I would like to thank the Centre for Disaster Management, Lal Bahadur Shastri National Academy of Administration who have been able to compile by faculty and staff of CDM who have contributed in various capacities for bringing out this Journal.

I would like to place on record the contribution made by faculty and staff of CDM who have contributed in various capacities for bringing out this Journal.

**(Abhiram G. Sankar)**
